2200 W

2200 W Output

80 - 630°C

9 stage temperature adjustment

150 - 500 l/min.

3 air volume levels

Suitable for pluggable nozzles

VDE

CE

## Function description

With its powerful 2200 W, the electronically controlled HeatMatic 2120 E is a reliable all-rounder for professionals. Precisely adjustable with just one hand from 80-630°C and an air volume of up to 500 l/min.

## Technical specifications

|                                  |                                   |                             |                   |
|----------------------------------|-----------------------------------|-----------------------------|-------------------|
| Temperature                      | 80 – 630 °C                       | Replaceable heating element | No                |
| Airflow rate                     | 150 – 500 l/min                   | Restart protection          | No                |
| Temperature setting              | Continuous                        | Temperature scanner         | Yes               |
| Settings made via                | Thumbwheel                        | Fine dust filter            | No                |
| Temperature display              | Thumbwheel with labelled settings | Thermal cut-out             | Yes               |
| Airflow control                  | Settings                          | Thermostat                  | Yes               |
| Programming function             | No                                | ESD                         | No                |
| Loc function                     | No                                | Nozzle receiver, type       | 34                |
| Residual heat indicator          | No                                | Cord length                 | 3 m               |
| Cool function                    | No                                | Dimensions (L x W x H)      | 253 x 87 x 200 mm |
| Motor, type                      | Brush motor                       | PU1, net weight             | 0,838 kg          |
| Heating element                  | Ceramic heating element           | Manufacturer's Warranty     | 1 year            |
| Mains power supply               | 220 – 230 V / 50 – 60 Hz          | PU1, EAN                    | 4007841089603     |
| Function, hanger                 | Yes                               | Output                      | 2200 W            |
| Function, life expectancy, motor | 750 h                             | Product category            | Hot air tool      |
