## Function description

Professional, cordless and powerful bonding for up to 90 minutes. The MG 5011 with 18V AMPSHare battery system has two temperature settings of 130 °C/200 °C and an extra-high flow rate of 20 g/min. The cordless glue gun is equipped with the Ø 2.8 mm long nozzle as standard.

## Technical specifications

|                               |                     |
|-------------------------------|---------------------|
| Temperature                   | 130 – 200 °C        |
| Warm-up time                  | 2 min               |
| Delivery rate                 | 20 gr/min           |
| Max. stick diameter           | 11 mm               |
| Temperature display           | LED segment display |
| Function, hanger              | No                  |
| Soft grip                     | Yes                 |
| Idle mode                     | No                  |
| Nozzle can be changed         | Yes                 |
| Stroke adjustment             | No                  |
| Temperature, adjustable       | Yes                 |
| Temperature accuracy +/-      | 5 °C                |
| Heating element               | PTC heating element |
| Voltage range (min)           | 18 V                |
| Rechargeable battery run time | up to 90 minutes    |

|                               |                                                                                                                               |
