

Rivet nut

RN M6

9x15 mm, 50 ea.

EAN 0079055 762621

Article number 762621

Function description

Blind rivet nuts – simple threads for one-sided access. Blind rivet nuts are the practical solution when a material is only accessible from one side but a stable thread is required. They enable signs, panels, or components to be fastened with screws without the rear side having to be accessible. The internal threads are available in common sizes M4, M5, and M6, offering flexible application options for workshops, crafts, and DIY projects.
